- Node.js
- Python (Django, Flask)
- Server-side scripting
- Web application security

EDUCATION

Bachelor of Science (B.S.) in Computer Science | May 2014 | Georgia Institute of Technology, Atlanta, GA

ABOUT ME

Reliable and results-focused back-end developer

Back-end developer with eight years of experience building scalable server-side applications and optimizing database performance. Proficient in designing robust APIs and implementing security protocols to protect sensitive data. Committed to delivering high-quality code and collaborating with cross-functional teams.

PROFESSIONAL EXPERIENCE

SENIOR BACK-END DEVELOPER | CLOUDCORE SOLUTIONS, ATLANTA, GA | APRIL 2017 TO PRESENT

- Design and maintain secure RESTful APIs, enabling seamless communication between front-end and server-side systems
- Improved database performance by optimizing queries and indexing, reducing load times by 40%
- Implement authentication and encryption protocols, enhancing security for enterprise applications

BACK-END DEVELOPER | DATALINK TECHNOLOGIES, CHARLOTTE, NC | JUNE 2014 TO APRIL 2017

- Developed server-side applications for web platforms, handling over 1 million user transactions monthly
- Automated deployment processes, reducing system downtime by 30%
- Collaborated with front-end teams to integrate APIs and ensure consistent functionality
