ABOUT ME

Senior software engineer and Certified ScrumMaster with more than a decade of experience in software development. Solid foundation in multiple programming languages and operating systems. Leads cross-functional teams with agile methodologies to reduce product development cycle times. Focused on integrating AI technologies to boost end-user productivity.

PROFESSIONAL EXPERIENCE

Senior Software Engineer | June 2021 – present

Adobe, San Francisco, CA

- Develop and maintain scalable components for Adobe Creative Cloud applications
- Utilize agile development processes to ensure faster feature release, leading to a 30% decrease in product development cycle time in 2022
- Work closely with product managers and designers to conceptualize, implement, and improve user-centric features
- Increased end-user productivity by 25% through the integration of AI technologies

Software Engineer | August 2012 – May 2021

GreenTech Innovations, Austin, TX

- Developed cloud-based solutions focused on sustainable energy technology for a fleet of over 500 vehicles
- Designed automated CI/CD services to streamline software delivery and workflow
- Saved the company roughly $50,000 in 2021 through the automation of supply chain logistics and shipment tracking
- Researched and developed new technologies to support the company's clean energy initiatives

CERTIFICATIONS

- Certified ScrumMaster (CSM), Scrum Alliance, 2021
- AWS Certified Solutions Architect, 2016
