Senior front-end developer delivering innovative user experiences at scale

Seasoned front-end developer with over a decade of experience designing high-performance web applications. Adept at leading development teams and implementing scalable solutions for enterprise-level clients.

Key Skills

- Application programming interface (API) integration
- Leadership and team mentoring
- React Native
- Scalable architecture design
- TypeScript

Professional Experience

Senior Front-End Developer

Prime Digital Solutions, San Francisco, CA | March 2017 – Present

- Directed the front-end team on a Software as a service (SaaS) product redesign, reducing churn rates by 15% within six months
- Developed custom components for a large-scale React Native application, improving code reusability by 40%
- Mentored junior developers, improving overall team productivity by 20% through training initiatives

Lead Front-End Developer

Elite Web Agency, San Francisco, CA | August 2013 – February 2017

- Spearheaded the migration of a legacy codebase to a modern React ecosystem, enhancing maintainability and performance
- Integrated third-party APIs to streamline client operations, resulting in a 25% reduction in manual workload
- Designed modular CSS architectures, improving scalability across multiple enterprise projects

Education

Master of Science (M.S.) in Software Engineering
STANFORD UNIVERSITY | Stanford, CA

Certifications

Certified Web Accessibility Specialist | International Association of Accessibility Professionals (IAAP) | October 2021
