ABOUT ME

Forensic scientist specializing in criminal investigation and laboratory analysis

Forensic scientist with eight years of experience conducting crime scene analysis, laboratory testing, and expert testimony. Skilled in DNA analysis, toxicology, and courtroom procedures.

PROFESSIONAL EXPERIENCE

Senior Forensic Scientist | Georgia Bureau of Investigation, Atlanta, GA
May 2018 – Present

- Conduct chemical and biological analyses on over 300 criminal case samples annually
- Provide expert witness testimony in over 20 criminal trials with a 95% conviction contribution rate

Forensic Lab Technician | Atlanta Police Department Crime Lab, Atlanta, GA
July 2015 – July 2015

- Processed physical evidence, including biological fluids and trace materials, maintaining chain-of-custody integrity
- Implemented improved sample logging system that reduced evidence processing time by 15%
