Reno, NV

KEY SKILLS

- Geological field surveys
- Mineral exploration
- Remote sensing technologies
- Seismic data interpretation
- Stratigraphic correlation

EDUCATION

May 2015 | Bachelor of Science
(B.S.) in Geology

University of Nevada, Reno,
Reno, NV

PROFESSIONAL EXPERIENCE

Project Geologist | SilverStone Minerals | Reno, NV

August 2019 – Present

- Lead geological surveys for new mining sites, discovering three high-yield gold veins valued at over \$8 million
- Coordinate with drilling teams to ensure proper core sampling and data analysis

Field Geologist | Nevada Gold Corp. | Carson City, NV

September 2015 – July 2019

- Conducted stratigraphic and lithological mapping for exploration projects across Nevada and Utah
- Improved site selection accuracy by 25% through enhanced seismic interpretation methods
