

AJ

Avery Jones

Enthusiastic junior software developer with nearly two years of experience working with and interning for industry giants IBM and Microsoft. Proficiency in C#, HTML, Java, and Python. Collaborates with seasoned developers to migrate projects and scale systems. Ensures a seamless UX by prioritizing security and minimizing post-launch issues.

EDUCATION

Bachelor of Science (B.S.) Computer Science | California Institute of Technology
Pasadena, CA | June 2024

PROFESSIONAL EXPERIENCE

JUNIOR SOFTWARE DEVELOPER | IBM, NEW YORK, NY
JUNE 2023 – PRESENT

- Enhance system security to safeguard data with multi-factor authentication for over 1 million users
- Implement new features for high-traffic web applications using Java and Python
- Support migration projects to move significant portions of an application to the cloud, improving scalability by 40%
- Engage in peer code reviews to ensure adherence to coding best practices and IBM standards
- Resolved an average of 150 bug fixes since June 2023 for apps post-launch to ensure seamless UX

SOFTWARE ENGINEERING INTERN | MICROSOFT, REDMOND, WA
MAY 2023 – AUGUST 2023

- Worked alongside the quality assurance team to identify and fix software bugs, resolving over 100 user-reported issues
- Participated in brainstorming ideas and solutions for new feature development
- Assisted in conducting user acceptance testing (UAT) to gather feedback and identify areas of improvement
- Partnered with software engineers to develop a user personalization feature that led to a 10% increase in daily active users within the first month of release
- Supported a security audit to identify and remedy 15 potential security threats

CERTIFICATIONS
