KEY SKILLS

- Field survey techniques
- Geographic Information Systems (GIS)
- Habitat restoration
- Population modeling
- Wildlife tracking technology

EDUCATION

Bachelor of Science (B.S.) in Wildlife Biology
Oregon State University, Corvallis, OR
May 2016

PROFESSIONAL EXPERIENCE

Wildlife Biologist | Northwest Conservation Group, Portland, OR
May 2019 – Present

- Oversaw reforestation projects that restored over 300 acres of critical wildlife habitat
- Conducted long-term studies of elk and wolf populations, improving tracking accuracy by 20% with new GPS technologies

Biological Technician | U.S. Fish and Wildlife Service, Eugene, OR
June 2016 – April 2019

- Monitored amphibian populations to inform habitat conservation strategies
- Assisted with creating public education materials to promote conservation efforts
