Yaling Zhang

ABOUT ME

Experienced software developer with a decade-long track record of leading complex software projects for Microsoft and Google. Integrates cutting-edge AI technology to enhance UX. Leads a team of 16 developers specializing in optimizing the hiring process and mentoring fresh talent. AWS and Google Cloud certified.

PROFESSIONAL EXPERIENCE

Lead Software Developer | Microsoft, Redmond, WA
May 2020 – Present

- Manage a team of 16 software developers as they design AI-driven features for Microsoft's suite of productivity tools
- Coordinate with cross-departmental teams to ensure the seamless integration of new software
- Boosted customer satisfaction scores by 20% after implementing a series of UX improvements based on recent feedback
- Facilitate technology workshops to keep the team updated on the latest industry trends
- Saved approximately \$500,000 in annual costs by migrating legacy systems to a cloud-based solution and optimizing resource allocation

Senior Software Developer | Google, Mountain View, CA
October 2013 – April 2020

- Collaborated with developers to enhance search engine accuracy and performance
- Authored over 20 technical papers and articles for Google on software development best practices
- Contributed to open-source projects related to Google's technology stack to encourage collaborative development
- Created a suite of learning resources and reduced onboarding time for new hires by 35%
- Mentored a group of 14 junior software developers, sharing programming knowledge from years of experience

CERTIFICATIONS

- AWS Certified Solutions Architect, Amazon Web Services, February 2018
- Google Cloud Architect, Google, March 2015
- Gold Certified Ruby Programmer, Ruby Association, December 2013
