KEY SKILLS

- Circuit design
- Simulation software
- Technical troubleshooting
- Data analysis
- Report generation

Emily Smith

I am an enthusiastic electrical engineer with internship experience at Siemens and Tesla. My skills in circuit design, simulation software, and technical troubleshooting are complemented by strong analytical abilities.

PROFESSIONAL EXPERIENCE

ELECTRICAL ENGINEER INTERN

SIEMENS, SAN JOSE, CA | JUNE 2022 – PRESENT

- Assisted in designing electrical circuits for renewable energy projects.
- Utilized simulation software to validate design efficiency, resulting in a 10% performance improvement.

ELECTRICAL DESIGN INTERN

TESLA, FREMONT, CA | JANUARY 2022 – MAY 2022

- Supported the development of battery management systems and conducted testing protocols.
- Generated technical reports that improved project documentation and workflow.

EDUCATION

Bachelor of Science in Electrical Engineering

San Jose State University, San Jose, CA | May 2023
