EDUCATION

B.S. in Software Engineering
Tech University, City, ST May 2017

PROFESSIONAL EXPERIENCE

Data Science Engineer | April 2019 - Present

CloudScale, City, ST

- Containerized ML models in Docker, reducing deployment time from weeks to hours
- Built a feature store using Feast, standardizing 50+ features across teams
- Integrated monitoring with Prometheus and Grafana to track model performance

ML Engineer | May 2017 - March 2019

PredictNext, City, ST

- Developed microservices in Flask for real-time inference
- Automated CI/CD for model training and serving with GitLab pipelines

CERTIFICATIONS

- Google Professional ML Engineer, April 2021
