

Logan Bailey

MLOps Data Scientist

City, ST 12345 | (123) 456-7890 | youremail@example.com | LinkedIn | Portfolio

Profile

Data scientist specializing in MLOps with six years of experience designing CI/CD pipelines for ML, ensuring model reliability and reproducibility at scale.

Professional Experience

MLOps Engineer | ScaleAI | City, ST

February 2018 – Present

- Implemented CI/CD for ML models using Jenkins and Docker, reducing deployment errors by 90%
- Monitored model drift and triggered automated retraining pipelines, maintaining 95% model accuracy
- Collaborated with DevOps to integrate ML workflows into Kubernetes clusters

Data Scientist | VisionAnalytics | City, ST

January 2016 – January 2018

- Developed end-to-end ML pipelines for image recognition tasks, processing 100K+ images daily
- Automated data versioning with DVC, improving reproducibility for research experiments
- Trained computer-vision models achieving 94% classification accuracy

Education

M.S. in Computer Engineering

May 2015

Tech Institute, City, ST

Certifications

- AWS Certified Machine Learning, Specialty, February 2020
