## Key Skills

- Prototype Evaluation
- Flight Data Analysis
- Risk Management
- Test Plan Development
- Engineering Collaboration

## Education

University of California , Los Angeles, CA  
May 2016  
Master of Science (M.S.) Aerospace Engineering

# Sharon Young

## Test Pilot

Test pilot with 2,500 hours evaluating rotary- and fixed-wing prototypes. Skilled at data collection, risk assessment, and flight-envelope expansion tests.

## Professional Experience

Lead Test Pilot , AeroDynamics Inc. | Mojave, CA  
March 2020 - Present

- Flew 50+ prototype flights, identifying safety improvements that cut failure rates by 30%.
- Collaborated with engineers to refine flight-control software, enhancing stability by 20%.

Test Pilot , FlightTest Labs | Mojave, CA  
January 2017 - February 2020

- Executed envelope-expansion trials on two new rotorcraft models.
- Authored detailed test reports, accelerating certification timelines by 25%.

## Certifications

- Experimental Test Pilot License,
- Commercial Pilot License , ASEL, AMEL
- FAA First Class Medical Certificate

## Flight Hours

- Total Flight Time: 2,500 hours
- Fixed-Wing: 1,500 hours
- Rotary-Wing: 1,000 hours
- Experimental Aircraft: 1,200 hours
- Envelope Expansion: 300 hours
