KEY SKILLS

- Route clearance & IED mitigation
- Field fortifications & defensive construction
- Demolition & obstacle reduction
- Heavy-equipment operation & maintenance
- Combat life-saving procedures
- Engineering training & leadership

EDUCATION

- Bachelor of Science (B.S.) in Civil Engineering**
State University, City, ST | May 2013

ABOUT ME

Resourceful Army Combat Engineer with six years of experience in route clearance, fortification construction, and explosive ordnance disposal support. Proven in managing engineering projects under fire and ensuring troop mobility and survivability.

PROFESSIONAL EXPERIENCE

COMBAT ENGINEER TEAM LEADER | U.S. ARMY, FORT IRWIN, CA
MARCH 2016 - MARCH 2022

- Led a six-person team in constructing 10 miles of rapid-deployment roads, improving maneuverability by 40%
- Directed demolition operations of 200+ obstacles, clearing safe lanes for over 500 vehicles
- Supervised maintenance of heavy equipment (bulldozers, graders), reducing downtime by 25%

COMBAT ENGINEER | U.S. ARMY, KANDAHAR, AFGHANISTAN
JANUARY 2014 - FEBRUARY 2016

- Conducted route-clearance patrols using mine-resistant vehicles, safely removing 150+ IEDs
- Built coalition forward operating base defenses, including berms and barriers, enhancing force protection
- Trained 50+ allied engineers on the emplacement of explosive charges and breach techniques
