Janelle Brooks

Blockchain Solution Architect

Distributed ledger expert with enterprise blockchain design experience
Blockchain solution architect with 7 years of experience developing decentralized systems for finance and logistics industries. Skilled in smart contracts, public and private blockchains, and cryptographic protocols.

CONTACT

- janelle.brooks@email.com
- LinkedIn | Portfolio
- City, ST

KEY SKILLS

- Blockchain architecture
- Cryptographic algorithms
- Ethereum, Hyperledger
- Node.js, Solidity
- Private chain deployments
- Smart contracts
- Token economics
- Web3 frameworks

PROFESSIONAL EXPERIENCE

BLOCKCHAIN ARCHITECT | CHAINTRUST SOLUTIONS, SAN FRANCISCO, CA
APRIL 2020 – PRESENT

- Designed private blockchain for tracking pharmaceuticals in supply chain
- Developed smart contracts for secure asset transfer across platforms
- Built REST APIs to interface with decentralized ledger

BLOCKCHAIN DEVELOPER | FINMESH LABS, OAKLAND, CA
JUNE 2016 – MARCH 2020

- Built Ethereum-based smart contract solutions for digital identity systems
- Partnered with financial institutions to prototype tokenization of assets
- Conducted code audits and optimized contract gas usage

EDUCATION

- Bachelor of Science (B.S.) in Computer Science
  San Francisco State University, San Francisco, CA | May 2016

CERTIFICATIONS

- Certified Blockchain Solutions Architect - Blockchain Training Alliance, August 2023
