### KEY SKILLS

- Python & SQL
- PostgreSQL & MySQL
- Docker & Airflow basics
- Data quality validation

### PROFESSIONAL EXPERIENCE

DATA ENGINEERING INTERN | METRODATA INC., ATLANTA, GA  
JUNE 2022 – DECEMBER 2022

- Assisted in building Python ETL scripts to load sales data into PostgreSQL, processing 100GB/week
- Wrote SQL queries to validate data quality and generate summary reports for the marketing team
- Containerized ETL workloads using Docker for consistent testing environments
- Participated in daily stand-ups and backlog grooming sessions with Agile teams

RESEARCH ASSISTANT | GEORGIA TECH, ATLANTA, GA  
SEPTEMBER 2021 – MAY 2022

- Developed Jupyter notebooks to analyze traffic datasets, identifying peak congestion patterns
- Built basic Airflow DAGs to schedule data ingestion from public APIs
- Collaborated in a team of four to document data schemas and pipeline designs
- Presented findings at the department's annual data showcase

### EDUCATION

- B.S. in Data Science  
Georgia Institute of Technology, Atlanta, GA | May 2022
