Devin Hartman

Security Solution Architect

ABOUT ME

Cybersecurity leader with deep infrastructure security experience

Security solution architect with 13 years of experience designing security architecture, risk mitigation plans, and zero-trust models for large-scale enterprises. Extensive background in network security, compliance, and incident response.

PROFESSIONAL EXPERIENCE

Security Solution Architect | Netrisk Technologies, Phoenix, AZ

March 2017 – Present

- Designed a zero-trust security model reducing internal breach risk by 45%
- Created security protocols for Azure and AWS hybrid environments
- Conducted red team–blue team simulations to improve threat response

Senior Security Engineer | AlphaLogic, Scottsdale, AZ

May 2010 – February 2017

- Managed endpoint and perimeter defenses for a 5K-employee company
- Developed encryption and MFA systems for remote access
- Led team through 3rd-party security audits and certification

CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP) , ISC2 , July 2022
