Riley Anderson

Mid-Level Java Web Developer

City, State Abbreviation, ZIP Code • email@example.com • LinkedIn | Portfolio

Detail-oriented Java web developer with 3 years of experience building scalable back-end services using Spring Boot and Hibernate. Proven ability to design RESTful APIs and optimize database interactions for high-traffic applications.

Professional Experience

Java Web Developer, FinTech Innovations, City, ST
April 2021 – Present

- Developed microservices with Spring Boot, handling over 100k daily transactions with 99.9% uptime
- Optimized Hibernate queries, reducing average database response times by 40%
- Integrated OAuth2 security, improving authentication workflows, and reducing unauthorized access attempts by 30%

Software Engineer, Atlas Solutions, City, ST
May 2015 – March 2021

- Built and maintained servlet-based web applications, supporting 50k monthly users
- Implemented caching layers with Redis, cutting API latency by 25%
- Wrote JUnit tests, achieving 85% code coverage, catching critical bugs before production

Education

Metro State University, City, ST
B.S. in Computer Science
May 2015
