## EDUCATION

North Carolina State University,  
2017

B.S. Business Administration

## SKILLS

- PMP, Certified ScrumMaster (CSM)
- Jira, Smartsheet, MS Project, Asana
- Agile/Scrum, Waterfall, hybrid delivery
- Earned value, RAID logs, stakeholder mapping
- Vendor and SOW negotiation

## EXPERIENCE

### Project Manager, Helix Northstar Software | Raleigh, NC | 2021-Present

- Lead delivery for the customer data platform team, 14 engineers and analysts across three time zones, on a roadmap with a \$3.6M annual budget.
- Replaced ad-hoc status emails with a weekly RAID log and Monday demo cadence, cutting executive escalations by roughly half.
- Shipped a self-serve onboarding portal three weeks ahead of the committed date by negotiating two non-critical features into phase two.
- Coach two associate PMs on stakeholder mapping, sprint planning, and risk burndowns.

### Project Manager, Brightline Logistics Group | Greensboro, NC | 2018-2021

- Ran the WMS migration covering 4 distribution centers and 280 users; came in \$147K under the \$1.9M budget after renegotiating the integration SOW.
- Built the project intake process used by the PMO to triage requests across IT, ops, and finance.
- Chaired weekly steering meetings with VP-level sponsors and translated technical risk into business impact.
- Mentored a rotating intern on Smartsheet, Jira, and basic earned value reporting.
