PROFESSIONAL EXPERIENCE

Director of IT | February 2020 - Present

Halverson & Reeve Architects, Burlington, VT

- Run a 14-person IT team supporting 1,200 staff across 9 studios in the US and Canada.
- Replatformed CAD file delivery to Azure NetApp Files, cutting designer wait times on large model opens from about 6 minutes to under 45 seconds.
- Took the firm through SOC 2 Type II in 11 months with no significant exceptions.
- Renegotiated the master services agreement with two top vendors, saving \$415,000 in year one.
- Sit on the operating committee and present quarterly IT roadmap to the partner group.

IT Manager | September 2016 - January 2020

Stellanova Biosciences, Worcester, MA

- Built the internal IT function from a one-person desk to a six-person team during a Series B to C growth phase.
- Led integration of two acquired labs onto a unified identity and ELN platform.
- Reduced average incident resolution time from 3.2 days to under 8 hours.
- Stood up the security awareness program and dropped phishing click-through from 27% to 4%.
- Owned a \$3.1M annual IT budget and reported to the COO.

Senior Systems Engineer | June 2012 - August 2016

Coastline Mutual Bank, Providence, RI

- Designed and operated the VMware and storage environment for the bank's core banking platform.
- Led a Windows Server 2003 to 2012 migration covering 240 servers across two data centers.
- Wrote the disaster recovery runbook tested annually by FDIC examiners.
- Mentored four engineers, two of whom were promoted into team lead roles.
