KEY SKILLS

- Telemetry and 12-lead
- ECG interpretation
- Epic, Cerner, Pyxis ACLS, BLS, PCCN
- Central line and PICC care
- SBAR handoff and bedside report
- Preceptorship and new grad onboarding
- Heart failure and post-op education
- Rapid response and code blue

PROFESSIONAL EXPERIENCE

Registered Nurse, Telemetry | Cedar Bluff Medical Center, Tacoma, WA
February 2021 - Present

- Carry a 4 to 5 patient assignment on a 36-bed cardiac step-down unit, averaging 22 admissions and discharges per week.
- Cut central line infection rate to 0.42 per 1,000 line days after leading bundle-compliance audits with the CNS.
- Precept 2 to 3 new grads per cohort and serve as charge relief on weekend nights.
- Recognized in patient satisfaction comments for clear teaching on anticoagulation and heart failure self-management.
- Sit on the unit practice council, drafting the updated fall-risk huddle workflow now used house-wide.

Registered Nurse, Medical-Surgical | Cedar Bluff Medical Center, Tacoma, WA
June 2019 - January 2021

- Managed 5 to 6 patient loads on a high-acuity post-surgical floor with frequent rapid-response activations.
- Trained on Epic Rover for bedside med scanning and helped the unit hit 98% scan compliance within one quarter.
- Floated to oncology and ortho when staffing dipped, picking up chemo-handling and CPM workflows.
- Co-led an SBAR refresher that reduced incomplete handoffs flagged on audit by roughly a third.

EDUCATION

Bachelor of Science in Nursing
University of Portland | May 2019

- Progressive Care Certified Nurse (PCCN), AACN, 2022
- RN License, Washington State #RN60123456
