

Larry Campbell

Patient Care Technician

Patient Care Technician with 4 years on med-surg and telemetry floors. Comfortable juggling 8 to 12 patients per shift, drawing labs, and de-escalating confused or anxious patients. Charge nurses lean on me to train new techs and keep call-light response on track.

- Epic and PointClickCare charting
- Telemetry monitoring
- Fall and pressure-injury prevention
- HIPAA and infection control
- Spanish, fluent

PROFESSIONAL EXPERIENCE

2022 - Present

Patient Care Technician II | Bayshore Regional Medical Center, Tampa, FL | 2022 to Present

- Cover 28-bed telemetry unit, rotating between vitals rounds, EKG leads, blood draws, and Foley care across 12-hour shifts.
- Trained 9 new PCTs on bedside glucose checks, fall-prevention protocols, and Epic charting; 7 of 9 passed 90-day competency on first attempt.
- Cut average call-light response time from 4:10 to under 2 minutes by rebalancing zone assignments with the charge RN.
- Flagged a deteriorating sepsis patient by catching a BP drop between scheduled rounds; rapid response team credited the early call.
- Serve on the unit's safe-lift committee, refreshing transfer-belt and Hoyer training every quarter.

2020 - 2022

Patient Care Technician | Palm Grove Skilled Nursing, Brandon, FL | 2020 to 2022

- Cared for 14 long-term residents per shift: ADLs, repositioning, incontinence care, and meal assistance.
- Logged I&Os and weekly weights in PointClickCare; flagged unexplained weight loss patterns to the DON.
- Helped roll out a new pressure-injury prevention bundle; unit pressure ulcer incidence dropped notably over two quarters.
- Filled in as restorative aide twice a week, walking residents and running ROM exercises per care plans.
