PROFESSIONAL EXPERIENCE

Registered Dental Hygienist

Wakefield Family Dental | September 2021 - Present

- Treat 9 to 11 patients per day across prophylaxis, scaling and root planing, and 3-month perio recall visits.
- Improved perio recall acceptance from 54% to 78% over 18 months by rebuilding the case-presentation script and using intraoral camera images.
- Took over digital radiograph QC for the practice, cutting retake rate noticeably after coaching two assistants on positioning.
- Co-led the switch from Dentrax to Eaglesoft, wrote the hygiene workflow doc the team still uses.

Dental Hygienist

Brightwater Dental Group, Durham, NC

- Held a column of about 1,800 recall patients with a 92% pre-appointment rate.
- Performed SRP with local anesthesia (block and infiltration) under NC expanded duties.
- Trained 3 new hygienists on the OraVerse and Arestin protocols.
- Flagged 11 suspicious oral lesions in 2022 that were referred for biopsy.
