

PRIYA RAMANATHAN

(503) 412-8867 • Portland, OR • priya.ramanathan@example.com • linkedin.com/in/priyaramanathan

Android developer with 6 years building consumer apps in Kotlin and Jetpack Compose. Shipped features used by millions across fintech and media, with a focus on offline-first UX, accessibility, and crash-free reliability.

Professional Experience

Senior Android Developer , Larksong Mobile , Portland, OR
August 2022 – Present

- Led migration from XML views to Jetpack Compose across the budgeting app, cutting screen build time and reducing UI code by roughly a third.
- Rebuilt the transactions sync layer with WorkManager and Room, lifting crash-free sessions from 98.1% to 99.74% on a base of 2.3M monthly users.
- Mentored four mid-level engineers through code reviews and weekly architecture clinics; two were promoted within the year.
- Partnered with backend on a paginated GraphQL feed, dropping P75 load time on the home tab by about 40%.

Android Developer , Northvane Media , Portland, OR
May 2019 – July 2022

- Built the offline reader for a news app reaching 850K DAU, using Room and Coil for image caching.
- Added Hilt-based DI across legacy modules, which simplified test setup and cut onboarding time for new hires.
- Owned the Play Store release train, automating signing and staged rollouts with Fastlane and GitHub Actions.
- Investigated and fixed an ANR cluster on Samsung devices that had been open for nine months.
