

# ELENA KOROVIN

Madison, WI | (608) 555-0119 | elena.korovin@example.com | linkedin.com/in/elenakorovin

## PROFILE

Network and infrastructure engineer with five years supporting healthcare and logistics environments. Strong on routing, firewalls, and Linux server work. Recently led a branch SD-WAN rollout across 22 sites with zero unplanned outages.

## KEY SKILLS

- Cisco IOS, Meraki, Aruba
- Palo Alto, Fortinet firewalls
- SD-WAN (Velocloud, Meraki)
- BGP, OSPF, VLANs, VPN (IPsec, SSL)
- Linux (RHEL, Ubuntu) administration
- Azure networking, Express Route
- Wireshark, SolarWinds, PRTG
- HIPAA-aware change control

## PROFESSIONAL EXPERIENCE

### Network Engineer II

Briarwood Logistics Group, Madison, WI | February 2022 - Present

- Designed and rolled out SD-WAN across 22 warehouses, replacing aging MPLS circuits and trimming WAN spend by about \$112,000 a year.
- Tuned Palo Alto firewall rule sets, reducing policy count by roughly a third without breaking production flows.
- Owned the network side of two acquisition integrations, including IP overlap remediation.
- Built Ansible playbooks for switch config backups and standard VLAN templates.
- Lead on-call rotation for three engineers and run the post-incident review.

### Systems & Network Administrator

Northvale Regional Clinics, Eau Claire, WI | June 2019 - January 2022

- Maintained the network and server stack for 11 clinic sites and roughly 480 endpoints.
- Migrated file shares to Azure Files and decommissioned three aging on-prem servers.
- Tightened HIPAA-related audit findings from 14 to 2 over an 18-month cycle.
- Was the primary contact for EHR vendor connectivity issues after hours.

## EDUCATION

### B.S. Network & Systems Administration

University of Wisconsin-Stout, | May 2019

- CompTIA A+, 2024
- CompTIA Network+ (in progress, exam scheduled)
