- NEC 2020 code knowledge
- Blueprint and single-line reading
- Conduit bending (EMT, rigid, PVC)
- Panel and switchgear installation
- Fluke 87V, megger, thermal imager
- OSHA 30, NFPA 70E (arc flash)
- Crew leadership and apprentice training

ABOUT ME

Licensed Journeyman Electrician with 8 years of commercial and light-industrial experience across new construction, tenant build-outs, and service work. Strong on NEC code interpretation, blueprint reading, and leading 3-5 person crews on tight schedules.

PROFESSIONAL EXPERIENCE

Lead Journeyman Electrician | February 2021 - Present
Cypress Ridge Electric, Raleigh, NC

- Run crews of 4 on commercial fit-outs ranging from 12,000 to 45,000 sq ft, finishing 7 projects on or ahead of schedule in 2023
- Pulled and terminated feeders up to 600 MCM for a \$1.8M warehouse build, passed final inspection with zero corrections
- Trained 3 apprentices on bending EMT and rigid, including offsets, saddles, and concentric 90s
- Coordinate daily with GCs, mechanical, and low-voltage trades to keep ceiling close dates from slipping
- Cut material waste roughly 15% on the last two projects by improving prefab cuts in the shop

Journeyman Electrician | September 2018 - January 2021
Brightline Mechanical & Electrical, Durham, NC

- Installed branch circuits, panels, and gear in office, retail, and medical tenant spaces
- Troubleshoot 277/480V three-phase systems and replaced failed contactors, breakers, and VFDs on service calls
- Worked under the GC schedule on a hospital wing addition with around 220 devices and 14 panels
- Helped redline as-builts and turned over closeout documents to the PM at each phase

Apprentice Electrician | June 2016 - August 2018
Brightline Mechanical & Electrical, Durham, NC

- Completed 8,000 hours of on-the-job training under licensed journeymen
- Ran EMT, MC cable, and rough-in for receptacles, lighting, and data drops
- Maintained tool inventory and kept job trailer organized for two service trucks
