PROFESSIONAL EXPERIENCE

- **Lead Laborer / Working Foreman, Piedmont Heavy Civil LLC, Greenville, SC**
2020 – Present
 - Lead crews of 5-9 on storm drain, water main, and grading scopes for DOT and municipal jobs
 - Coordinate daily tasks with project super and equipment operators across 2-3 active sites
 - Set forms, place rebar, and finish flatwork pours up to 320 cubic yards in a single day
 - Run pre-task safety briefings each morning and document JHAs for the safety manager
 - Filled in as competent person for excavations 6-12 ft deep when foreman was off site
- **Senior Laborer, Blue Ridge Industrial Contractors, Spartanburg, SC**
2016 – 2020
 - Worked plant shutdowns at paper mills and chemical facilities on 12-hour shifts for 2-3 week turnarounds
 - Rigged and signaled for crane picks up to 18,000 lbs under operator direction
 - Cut, fit, and torqued temporary scaffold under supervision of scaffold builder
 - Earned \$4.25/hr pay bump after taking confined space and H2S awareness training
 - Maintained clean drug screen and perfect attendance across 4 years
- **Construction Laborer, Catawba Site Development, Rock Hill, SC**
2012 – 2016
 - Built residential pads and subdivision roads, including curb, gutter, and sidewalk pours
 - Operated walk-behind compactor, plate tamper, and concrete buggy
 - Hand-dug around buried utilities to avoid strikes on 65+ residential lots
 - Trained 4 new laborers on grade staking, string lines, and form setup
- **General Laborer, Foothills Framing & Concrete, Asheville, NC**
2010 – 2012
 - Started as a stripper on residential foundations and moved into form setting within 8 months
 - Carried lumber, set snap ties, and stripped forms after pours
 - Helped framing crew sheath roofs and walls on 30+ single-family homes
 - Kept job sites clean and stocked materials for the next day's pour
