

DA

Deborah Allen

ICU Nurse

New graduate RN starting in a 20-week ICU residency after a senior practicum in a mixed medical-surgical ICU. Hands-on with ventilated patients, arterial lines, and titrated drips under preceptor sign-off. Comfortable asking for help early, charting cleanly, and supporting families through difficult conversations.

KEY SKILLS

- Head-to-toe ICU assessment
- Telemetry rhythm interpretation
- Foley, NG, and IV insertion
- Epic charting
- SBAR handoff
- Bedside glucose and ABG sampling
- Aseptic technique
- Patient and family teaching

PROFESSIONAL EXPERIENCE

Senior Nursing Practicum, Surgical ICU | Riverbend Medical Center, Columbus, OH
Jan 2024 - May 2024

- Completed 180 precepted hours in a 14-bed SICU caring for post-op trauma, vascular, and neurosurgical patients.
- Performed full assessments, hourly vent checks, and Q1 neuro checks on 1-2 patient assignments with preceptor oversight.
- Documented one ICU admission start-to-finish including admission database, lines and tubes, and family teaching.
- Joined 3 code blues as compressor and recorder; debriefed each one with the educator.

Patient Care Tech, Telemetry | Maple Grove Community Hospital, Westerville, OH
2022 - 2024

- Supported 6-8 telemetry patients per shift with vitals, ambulation, blood glucose checks, and bath care.
- Recognized rhythm changes on monitor and escalated 3 confirmed runs of VT to the charge nurse within minutes.
- Trained 4 incoming techs on EKG lead placement and bedside reporting handoff.
