PROFESSIONAL EXPERIENCE

2023 - Present

Junior Software Developer, Bluedrift Analytics, Raleigh, NC

- Built and shipped 9 internal dashboard pages in React and TypeScript for the customer success team.
- Fixed roughly 40 bugs across the marketing site and admin console during my first year.
- Added Cypress tests to the login and signup flows, which had no end-to-end coverage before.
- Joined the weekly architecture review and started writing short design notes for my own tickets.

Summer 2022

Software Engineering Intern, Northgate Data Co., Durham, NC

- Wrote a Python script that deduplicated about 120,000 rows of CRM contact data each week.
- Paired with a senior engineer to add Sentry error tracking to two internal services.
- Presented final project to the engineering org at end of internship.
