## KEY SKILLS

- Copper soldering and sweat joints
- PEX crimp and expansion connections
- Cast iron hub and no-hub assembly
- Grooved steel pipe fitting
- Domestic water line rough-in
- Pressure testing and leak checks
- Drain cleaning with hand snake
- Blueprint and isometric reading
- Pipe measuring, cutting, and threading
- Material staging and jobsite setup
- Tool maintenance and inventory
- Ladder and lift safety

## PROFESSIONAL EXPERIENCE

### PLUMBING APPRENTICE | SUMMIT MECHANICAL CONTRACTORS, AKRON, OH 2023 – PRESENT

- Assist journeymen on commercial rough-in for a 4 story medical office, mostly hanging cast iron and grooved steel.
- Logged 2,100 of 8,000 apprenticeship hours with all weekly reports signed and submitted on time.
- Sweat and pressure test copper joints for domestic water lines on the medical office project.
- Stage materials and tools before crew arrival, cutting morning setup by roughly 20 minutes.

### HELPER / LABORER | GREYSTONE HOME SERVICES, CANTON, OH 2022 – 2023

- Rode along on residential service calls, learning to diagnose slow drains and water heater faults.
- Cleared kitchen and lavatory drains using a hand snake under journeyman supervision.
- Kept job sites clean and protected customer flooring with drop cloths and shoe covers.
