KEY SKILLS

- Venipuncture and IV catheter placement
- Anesthesia monitoring (basic)
- Dental prophylaxis and charting
- Radiograph positioning (small animal)
- Restraint and low-stress handling
- Avimark and ShelterBuzz
- SOAP note documentation
- Vaccine prep and administration

Professional Experience

VETERINARY TECHNICIAN EXTERN | GREENBELT VETERINARY CLINIC, BOISE, ID

JAN 2024 - MAY 2024

- Completed 320 supervised clinical hours covering anesthesia induction, dental prophylaxis, and radiograph positioning
- Placed 40+ cephalic IV catheters with a first-stick success rate above 80% by end of rotation
- Monitored anesthesia for routine spays, neuters, and mass removals using a Cardell multiparameter
- Drafted SOAP notes in Avimark and reviewed them with the attending DVM before close of day

VETERINARY ASSISTANT (PART-TIME) | SAGEBRUSH HUMANE SOCIETY, MERIDIAN, ID

2022 - 2024

- Restrained for vaccine clinics serving 60 to 90 animals per Saturday
- Assisted on high-volume spay/neuter days, prepping patients and recovering from anesthesia
- Ran fecal floats and ear cytologies; logged results in ShelterBuzz
- Cleaned wards, managed isolation protocols, and helped onboard new volunteers

Education

- AAS, Veterinary Technology, College of Western Idaho, 2024
- VTNE Candidate, scheduled spring 2024
- Fear Free Certified Professional, Level 1 (2023)
