

Amy Torres

Maintenance

Industrial maintenance technician with 8 years across food processing and warehouse facilities. Strong on PLC troubleshooting, hydraulics, and preventive maintenance programs. Known for cutting unplanned downtime through better PM scheduling and root-cause work orders.

EDUCATION

A.A.S. Industrial Maintenance Technology, Tulsa Community College, 2017 |

OSHA 30-Hour General Industry; NFPA 70E Arc Flash Certified |

KEY SKILLS

- PLC troubleshooting (Allen-Bradley, Siemens)
- Hydraulics and pneumatics
- Welding (MIG, stick)
- Electrical up to 480V 3-phase
- CMMS (eMaint, Maximo)
- Preventive maintenance planning
- Lockout/tagout and arc-flash safety
- Conveyor and sortation systems
- VFDs and motor controls
- Blueprint and schematic reading

PROFESSIONAL EXPERIENCE

Senior Maintenance Technician

Brightline Foods Manufacturing, Tulsa, OK, | 2020 – Present

- Reduced unplanned line stoppages by 37% across two packaging lines after rebuilding the PM schedule in eMaint CMMS
- Troubleshoot Allen-Bradley CompactLogix PLCs and VFDs on conveyor and case-packer systems
- Lead weekend shutdown work, including gearbox replacements, chain alignment, and pneumatic rebuilds
- Trained 4 junior techs on lockout/tagout procedures and arc-flash safety
- Cut spare-parts spend by reorganizing the storeroom and setting min/max levels on 600+ SKUs

Maintenance Technician II

Cedar Ridge Logistics, Broken Arrow, OK, | 2017 – 2020

- Maintained 90+ pieces of MHE: conveyors, sortation, and dock equipment across a 480k sq ft DC
- Responded to break-fix calls during peak with average response under 8 minutes
- Rebuilt sortation diverters and replaced photo-eyes, gearmotors, and drive belts on rotation
- Documented repairs in Maximo and flagged recurring failures for engineering review
