- Jest, React Testing Library, Playwright
- Storybook, Chromatic
- Web performance (Lighthouse, Web Vitals)
- Accessibility (WCAG 2.1, axe)
- Webpack, Vite
- Git, GitHub Actions

ABOUT ME

Front end developer with 6 years building React applications for fintech and SaaS products. Focused on accessible component libraries, performance budgets, and clear collaboration with design and backend teams.

PROFESSIONAL EXPERIENCE

SENIOR FRONT END DEVELOPER | LATTICE COVE SOFTWARE, PORTLAND, OR 2021 - PRESENT

- Rebuilt the customer dashboard in React 18 and TypeScript, cutting Largest Contentful Paint from 4.1s to 1.6s on mid-tier Android devices
- Led adoption of a shared design system across 7 product teams, replacing duplicated CSS and reducing component bug tickets by roughly a third
- Wrote Playwright end-to-end tests covering the checkout flow, which caught two regressions before release in Q3
- Paired with backend engineers on a GraphQL migration and trimmed unused fields, pushing payload sizes down on the most-trafficked pages
- Mentored 2 junior developers through weekly code review and a six-week TypeScript study group

FRONT END DEVELOPER | BRIGHTSPOKE ANALYTICS, PORTLAND, OR 2018 - 2021

- Built reporting widgets in React and D3 used by around 12,000 weekly active analysts
- Converted a legacy jQuery admin tool into a Next.js app, finished two weeks ahead of the scoped timeline
- Set up Storybook and visual regression testing with Chromatic, giving design a way to review components without a staging build
- Added ARIA roles and keyboard navigation to chart components, bringing the app to WCAG 2.1 AA on the audited screens
