KEY SKILLS

- Implant restoration and single-unit through full-arch case planning
- Clear aligner therapy (Invisalign, ClearCorrect)
- Crown and bridge, including digital impressions with iTero
- Endodontic therapy on anterior and premolar cases
- Surgical and simple extractions, including erupted thirds
- Sleep apnea oral appliance therapy and screening

PROFESSIONAL EXPERIENCE

Senior Associate Dentist

Lakeside Dental Arts, Madison, WI, | 2018 – Present

- Personal production averages \$1.1M annually across roughly 1,650 patient visits per year.
- Restore 60-80 implant cases per year working with two local oral surgeons.
- Run a Tuesday aligner block, currently managing 140 active Invisalign patients.
- Trained two new associates on practice systems, case presentation, and Dentrix workflows.
- Helped launch a sleep apnea appliance program that now sees 8-12 new patients monthly.

General Dentist

Heartland Smiles (DSO), Rockford, IL, | 2014 – 2018

- Saw 22-28 patients per day across two operatories with rotating hygiene support.
- Hit top-quartile production within the region by year three.
- Took on the Friday extraction column, handling surgical thirds when scope allowed.
- Helped onboard four new graduates through ride-along weeks and weekly chart audits.

Associate Dentist

Northside Family Dental, Beloit, WI, | 2013 – 2014

- First post-grad role, building speed on operative and crown-and-bridge fundamentals.
- Saw a steady column of 14-18 patients per day, mostly PPO and Medicaid.
- Completed Spear Education Workshop I during the year.

- Composite and ceramic restorative dentistry
- Case presentation and treatment plan acceptance
- Associate mentoring and chairside training
- Dentrix practice management and digital charting
- CBCT interpretation for implant and endo planning
- Production goal setting and schedule optimization
