- Specimen accessioning and labeling
- Beckman Coulter AU680 basics
- Manual cell counts and differentials
- Urinalysis (Clinitek)
- Gram staining
- Epic Beaker LIS exposure
- PPE and BBP compliance

PROFESSIONAL EXPERIENCE

CLINICAL LAB EXTERN | SAGUARO VALLEY HOSPITAL, MESA, AZ
JAN 2024 – MAY 2024

- Completed 600 supervised hours rotating through hematology, chemistry, urinalysis, and blood bank.
- Performed venipuncture on 30+ patients per shift during inpatient morning rounds with a 96% first-stick success rate.
- Loaded specimens onto Beckman Coulter AU680 and prepped manual differentials on Wright-stained slides.
- Logged daily QC results and helped run delta checks before releasing chemistry results to the LIS.

PHARMACY TECHNICIAN (PART-TIME) | DESERT RIDGE PHARMACY, TEMPE, AZ
2022 – 2023

- Filled an average of 140 prescriptions per shift while verifying patient information and insurance details.
- Counseled patients on OTC products and maintained refrigerated inventory within USP storage ranges.
- Trained on HIPAA handling of PHI and accurate barcode scanning at intake.
