

Amanda Walker

Hvac Technician

Kansas City, MO 12345 | (816) 555-0188 | jordan.whitfield@example.com

Profile

First-year HVAC apprentice with EPA 608 Type II certification and trade school training in residential systems. Comfortable on ladders, with hand tools, and on rough-in installs. Looking to build diagnostic skills under a journeyman.

Professional Experience

HVAC Apprentice | Heartland Heating and Air, Kansas City, MO

2024 – Present

- Assist lead techs on residential installs averaging 3 changeouts per week, including condenser sets, line set runs, and air handler swaps.
- Cut, fit, and braze copper line sets under direct supervision; pull vacuums to 500 microns before charge.
- Stock the van each morning, track parts in the truck inventory app, and confirm permits before leaving the shop.
- Help homeowners understand the work being done and keep job sites clean with drop cloths and shoe covers.

Maintenance Helper | Midtown Property Group, Kansas City, MO

2023 – 2024

- Changed filters, cleaned condenser coils, and flushed drain lines across 140 apartment units on a quarterly PM schedule.
- Logged work orders in AppFolio and flagged units that needed a licensed tech for refrigerant or electrical work.
- Replaced thermostats, capacitors, and contactors on simple service calls.

Education

HVAC/R Technology Diploma, Metropolitan Community College, 2024

EPA 608 Type II Certification, 2024

OSHA 10 General Industry, 2023
