KEY SKILLS

- Metal stud framing and light-gauge layout
- Commercial door and hardware installation
- Blueprint and architectural drawing interpretation
- Hilti PLT robotic total station layout
- Fire-rated wall and ceiling assemblies
- Commercial casework and millwork installation
- Acoustic and hard-lid ceiling systems
- Powder-actuated tools and anchor selection
- Crew leadership and apprentice mentoring
- Punch list management and turnover
- MEP trade coordination
- ADA compliance and finish carpentry

PROFESSIONAL EXPERIENCE

2020 - Present

Journeyman Carpenter | Cascade Interior Contractors, Spokane, WA

- Lead metal stud and drywall scope on tenant improvement jobs ranging from \$180K to \$1.2M.
- Framed and hung doors on a 42,000 sq ft medical office buildout, finishing the door package 9 days ahead of schedule.
- Run layout from architectural drawings using a Hilti PLT robotic total station.
- Mentor two apprentices on layout, anchor selection, and fire-rated assemblies.
- Coordinate with the super daily to keep MEP and ceiling trades from stepping on each other.

2017 - 2020

Carpenter | Northline Builders, Coeur d'Alene, ID

- Framed light-gauge interior partitions, soffits, and bulkheads on retail and restaurant fit-outs.
- Installed commercial casework, plastic laminate countertops, and ADA-compliant millwork.
- Reworked an entire ceiling grid layout after as-built conflicts, saving the GC roughly 60 labor hours.
- Completed apprenticeship and topped out to journeyman in late 2019.

EDUCATION

Journeyman Carpenter Certification, United Brotherhood of Carpenters Local 59, 2019

Carpentry Apprenticeship (4-year), Pacific Northwest Regional Council of Carpenters, 2015-2019
