Gary Mitchell

Pharmacist

Board-certified pharmacist with 8 years across hospital and ambulatory care settings. Lead anticoagulation and antimicrobial stewardship rounds, supervise 4 technicians, and consistently keep dispensing error rates below the system benchmark. Comfortable presenting to physician committees and training PharmD residents.

PROFESSIONAL EXPERIENCE

CLINICAL PHARMACIST, CARDIOLOGY

WAKEFIELD REGIONAL MEDICAL CENTER, RALEIGH, NC | 2020 – PRESENT

- Manage anticoagulation therapy for a 38-bed cardiac unit; verify roughly 220 orders per shift with a 0.04% intervention-flagged error rate.
- Co-chair the antimicrobial stewardship committee; reduced broad-spectrum vancomycin days of therapy by cutting unnecessary continuations after culture results.
- Precept two PGY-1 residents per year on topics including heparin protocols, DOAC reversal, and post-MI medication reconciliation.
- Built a pharmacist-led discharge counseling workflow that lowered 30-day heart failure readmissions on the pilot floor.
- Serve as code response pharmacist on rotating night call, averaging 6 to 9 codes per month.

STAFF PHARMACIST

WAKEFIELD REGIONAL MEDICAL CENTER, RALEIGH, NC | 2017 – 2020

- Verified medication orders across med-surg, oncology, and ICU populations on rotating 12-hour shifts.
- Compounded sterile IV products under USP <797> standards; passed all 14 quarterly media-fill tests during tenure.
- Trained 11 new technicians on Pyxis override procedures and controlled substance reconciliation.
- Identified a duplicate therapy pattern in post-op pain orders and proposed an order-set fix adopted house-wide.
