

Ryan Nelson

Programmer

Junior programmer with one year of full-time experience plus two internships in web development. Strongest in JavaScript, TypeScript, and React, with growing comfort in Node and SQL. Looking for a team that pairs code review with room to take on bigger features.

EDUCATION

B.S. Computer Science, North Carolina State University, 2023

Relevant coursework: Data Structures, Web Systems, Databases, Software Engineering

KEY SKILLS

- JavaScript
- TypeScript
- React
- Node.js
- HTML/CSS
- SQL (Postgres)
- Jest
- Git
- REST APIs
- Figma (basic)

PROFESSIONAL EXPERIENCE

- **Associate Software Developer, Tidalmark Health, Raleigh, NC**
2023 – Present
 - Build React components for a patient intake portal used by 14 clinics in the Carolinas.
 - Fixed a date-handling bug that had been double-booking telehealth appointments for several months.
 - Wrote Jest unit tests for the appointments module and brought coverage on that file from near zero to about 75%.
 - Pair with a senior engineer twice a week to learn the team's TypeScript and accessibility conventions.
- **Software Engineering Intern, Foxhollow Studios, Remote**
Summer 2022
 - Shipped two small features in a Vue.js marketing site, including a contact form that now collects roughly 300 leads per month.
 - Triaged about 25 bug tickets from the QA backlog and closed 18 of them during the internship.
 - Presented a final demo to engineering leadership and received a return offer.
