- Spring Boot, Spring Data JPA
- PostgreSQL, MySQL, basic Redis
- JUnit 5, Mockito
- Git, GitHub, Maven
- REST, OpenAPI/Swagger
- Docker basics
- Linux command line

MARCUS OKAFOR

Java Developer

Junior Java developer with 1 year of full-time experience plus a year-long internship on a Spring Boot order management team. Comfortable writing REST endpoints, JUnit tests, and SQL against Postgres. Looking to grow into service-level ownership.

PROFESSIONAL EXPERIENCE

2023 - Present

Java Developer | Buckeye Mutual Insurance, Columbus, OH

- Build and maintain REST endpoints on a Spring Boot 3 policy-lookup service that handles around 240K requests per day.
- Wrote 60+ JUnit 5 and Mockito tests for the claims-attachment module, lifting line coverage from 54% to 81%.
- Fixed a slow N+1 query in Hibernate by adding a fetch join, taking the underwriting report from 9 seconds to under 2.
- Pick up on-call rotations with a senior buddy and have closed 4 production incidents end to end.

Summer 2022

Software Engineering Intern | Lattice Retail Group, Dublin, OH

- Shipped a Spring Batch job that reconciled nightly inventory feeds from 3 warehouses into the central catalog.
- Added Swagger/OpenAPI docs to 12 internal endpoints so the mobile team could self-serve integration.
- Presented the intern project to the engineering director and got the job converted to a full-time offer.

EDUCATION

B.S. Computer Science, Ohio State University, 2023

Coursework: Data Structures, Operating Systems, Databases, Distributed Systems
