KEY SKILLS

- Anesthesia for endoscopy, CT, and surgical patients
- Ultrasound-guided FNA assistance
- Bone marrow aspirate and core biopsy support
- Full mouth dental radiographs
- Central line placement and care
- Cornerstone, ImproMed, IDEXX VetLab
- Client education and discharge calls
- Controlled substance compliance
- Tech training and mentoring

PROFESSIONAL EXPERIENCE

Veterinary Technician, Internal Medicine | Sonoran Veterinary Referral Center, Tucson, AZ
2022 - Present

- Support 2 internists on roughly 14 appointments and 4 procedures per day including endoscopy, FNAs, and bone marrow aspirates
- Run anesthesia for endoscopic procedures and CT imaging using sevoflurane and multimodal pain protocols
- Coordinate diagnostic workups for chronic GI, endocrine, and renal cases, pulling labs and imaging for doctor review
- Built a discharge call-back script that lifted client follow-up compliance from 62% to 84% over two quarters
- Trained 3 new technicians on jugular sampling and central line care

Veterinary Technician | Coyote Wash Animal Hospital, Marana, AZ
2019 - 2022

- Anesthetized and recovered 8 to 12 surgical patients per day for spays, neuters, dentals, and laceration repairs
- Performed full mouth dental radiographs and charted oral pathology for the DVM
- Educated clients on home dental care, insulin administration, and post-op recovery in person and by phone
- Maintained controlled drug logs and assisted with monthly DEA reconciliation

EDUCATION

AAS, Veterinary Technology, Pima Community College, 2019
