- React and component-based UI
- Next.js (learning)
- Astro and WordPress
- Git and GitHub pull request workflows
- Cypress and basic end-to-end testing
- Stripe payment integration
- Google Analytics 4 and Search Console
- REST API consumption
- Cross-browser debugging (Chrome, Safari, Firefox)

### PROFESSIONAL EXPERIENCE

#### WEB DEVELOPER INTERN | CARDINAL TRAIL OUTFITTERS, COLUMBUS, OH SUMMER 2024 – PRESENT

- Built the gear rental booking flow in React and Tailwind, used by about 350 customers a week during peak season.
- Added Stripe payment links to 4 product pages and wrote the Cypress tests that cover the checkout path.
- Fixed 28 bugs from the JIRA backlog in 12 weeks, including a Safari-only date picker issue that had been open for months.
- Joined daily standups and demoed work to the marketing team every other Friday.

#### FREELANCE WEB DEVELOPER | SELF-EMPLOYED, COLUMBUS, OH 2023 – 2024

- Built 5 small business sites in Astro and WordPress for clients found through a local maker meetup.
- Set up Google Analytics 4 and search console for each launch and walked owners through the dashboards.
- Charged a flat \$1,800 per site with a one-revision policy, finished all five on time.
