

Emily Clark

Landscape Worker

(919) 555-0184 • Raleigh, NC 12345 • marcus.delaney@example.com

Crew leader with seven years in commercial and residential landscape maintenance, install, and hardscape support. Comfortable running a three to five person crew, reading site plans, and keeping route days on schedule through summer peak.

Professional Experience

Crew Leader, Greenmark Grounds Services, Raleigh, NC
2021 – Present

- Run a four-person maintenance route covering 38 commercial properties on a weekly cycle, including two class-A office parks and a regional hospital campus.
- Cut average route completion from 11.5 to 9 hours per day by resequencing stops and staging trailers the night before.
- Train new hires on safe operation of walk-behind and stand-on mowers, string trimmers, and backpack blowers; three of my last four trainees are still with the company after 18 months.
- Handle client walkthroughs and punch-list items directly, which cut callback tickets on my route by roughly a third last season.
- Log equipment hours and fuel daily so the shop can pull machines for service before they fail on-site.

Landscape Laborer, Piedmont Lawn & Turf, Cary, NC
2018 – 2021

- Mowed, edged, trimmed, and blew down 15-20 residential accounts per day on a two-person crew.
- Assisted on spring and fall cleanups, mulch installs (roughly 400 yards a season), and seasonal color rotations.
- Ran aerator, overseeder, and dethatcher; helped grow the aeration add-on program from 60 to 140 accounts.
- Kept a clean, road-ready truck and trailer, tie-downs, and daily pre-trip inspection log.

Education

Wake Central High School, 2017

State-licensed to apply ornamental and turf pesticides, in good standing

Key Skills

- | | |
|---|--|
| • Zero-turn and stand-on mower operation | • String trimmer, edger, backpack blower |
