- Team scheduling and staffing
- Quality control and equipment testing
- Protocol standardization
- Trauma and code response imaging
- CT imaging on multiple vendor scanners
- Image archiving system administration (Sectra)
- Epic Radiant super-user
- Precepting and student coordination
- Vendor coordination for equipment installs
- Department QA reporting

ABOUT ME

Serving as lead radiologic technologist with 11 years of imaging experience and 4 years running day-shift staffing for a 26-bed emergency department. Strong on quality assurance, protocol standardization, and coaching techs through difficult cases. Registered in radiography and computed tomography.

PROFESSIONAL EXPERIENCE

Lead Radiologic Technologist, Emergency Imaging | 2020 - Present
Verde Mesa Medical Center, Chandler, AZ

- Lead a team of 9 techs across day shift, building the weekly schedule and covering vacation gaps on the floor.
- Cut department repeat rate from 9.2% to 5.6% over 18 months through positioning audits and quarterly one-on-one coaching.
- Standardized trauma spine and pelvis protocols with the radiology group, dropping average door-to-image time to 11 minutes.
- Own monthly quality checks on 4 radiographic rooms and 2 portables, keeping the department audit-ready.
- Run the clinical instructor relationship with two local radiography programs, placing 6 to 8 students per semester.

Senior Radiologic Technologist | 2016 - 2020
Sonora Bluff Hospital, Gilbert, AZ

- Cross-trained into CT during the second year and worked a rotating R/CT schedule covering evenings.
- Lead tech on the digital radiography upgrade project across three rooms, coordinating vendor install with minimal patient disruption.
- Wrote the department's portable chest positioning reference used by float pool techs.
- Handled trauma activations and code responses, including chest tube and central line confirmations.

Radiologic Technologist | 2013 - 2016
Sonora Bluff Hospital, Gilbert, AZ

- Rotated general radiography, fluoroscopy, and OR C-arm across all three shifts.
- Completed CT clinical hours and passed the computed tomography registry exam in 2015.
- Recognized twice as tech of the quarter for patient care scores.
