

MARISSA ELLENDER

X Ray Technician

Tulsa, OK 12345 | (918) 555-0142 | m.ellender@example.com

PROFILE

Registered radiologic technologist with 7 years of hospital and outpatient imaging experience across general radiography, fluoroscopy, and portable exams. Comfortable working solo on overnight trauma call and coaching newer techs through difficult positioning. Known for clean images the first try on combative or pediatric patients.

KEY SKILLS

- General radiography on digital equipment (Fuji and Carestream)
- Fluoroscopy and mobile C-arm operation
- Portable and trauma imaging
- Pediatric positioning and immobilization
- Image archiving systems (Sectra, Merge)
- Epic Radiant workflow
- Contrast administration protocols
- Dose minimization and pediatric dose reduction
- Patient transfer and safe lifting
- Precepting and student instruction

PROFESSIONAL EXPERIENCE

Radiologic Technologist II

Osage Ridge Regional Medical Center, Tulsa, OK | 2021 - Present

- Cover emergency and trauma bay overnights, averaging 42 exams per 12-hour shift with a repeat rate held under 4%.
- First tech called for pediatric orthopedic cases after positioning technique cut retakes on toddler forearm series.
- Run C-arm for ortho and pain management cases in the OR, including hip pinnings and lumbar injections.
- Precept new grads through their 90-day orientation, four completed since 2022 with all passing competency checks.

Radiologic Technologist

Cascade Family Imaging, Broken Arrow, OK | 2018 - 2021

- Rotated across three outpatient clinics performing routine radiography, bone density scans, and fluoroscopic upper digestive tract studies.
- Handled roughly 55 patient encounters daily during the flu-season surge without missed appointment slots.
- Flagged a cracked bucky tray after a series of grid-line artifacts, avoiding a week of misreads while parts shipped.
- Trained front-desk staff on ordering-provider script errors, cutting rework calls to referring offices noticeably.
