KEY SKILLS

- Communication device evaluation and programming across major speech-generating platforms
- Pediatric dysphagia and feeding
- Instrumental swallow study interpretation and texture-modified diet leveling
- Trained in tactile-cueing motor speech treatment
- IEP writing and Medicaid documentation
- Bilingual service delivery (English/Tamil)
- Picture-exchange communication and Hanen It Takes Two to Talk
- EMR: WebPT, Epic, SimplePractice

PROFESSIONAL EXPERIENCE

Speech-Language Pathologist | Wake Pediatric Therapy Group, Raleigh, NC
2021 - Present

- Manage a caseload of 42 pediatric clients weekly with diagnoses spanning apraxia of speech, autism, language delay, and fluency disorders.
- Completed 68 communication device evaluations in 2023, matching 9 children to dedicated speech-generating devices and training families on device programming.
- Co-treat with occupational therapy on a monthly sensory-feeding group; caregiver-reported mealtime distress dropped noticeably across the 12-week cycle.
- Wrote and defended IEP goals for school-district contracts, keeping documentation compliant with NC Medicaid billing requirements.
- Precept graduate externs from two in-state university programs each semester, averaging 2 students per year.

Speech-Language Pathologist (per diem) | Cedar Ridge Regional Hospital, Durham, NC
2019 - 2021

- Rotated through acute care, critical care, and inpatient rehab covering roughly 8-10 evaluations per shift.
- Performed bedside swallow evaluations and instrumental swallow studies under radiology, recommending standardized texture-modified diets.
- Trained nursing staff on aspiration precautions during a unit-wide dysphagia education push.

EDUCATION

M.S., Speech-Language Pathology, East Carolina University, 2019

B.A., Communication Sciences and Disorders, in-state university, 2017

State Speech-Language Pathology License, active; Certificate of Clinical Competence in Speech-Language Pathology
