KEY SKILLS

- Multi-shift production planning and scheduling
- Sales and operations planning execution and capacity modeling
- Line efficiency tracking and downtime analysis
- ERP systems (Epicor, Infor)
- Lean manufacturing and 5S
- Kaizen event facilitation
- Labor budget management and forecasting
- Weld, machining, and paint process oversight
- Root cause analysis (5 Why, fishbone)
- Cross-functional coordination with quality, maintenance, and materials
- Workplace safety compliance and floor safety programs
- Supervisor development and cross-training matrices

PROFESSIONAL EXPERIENCE

2019 - Present

Production Manager | Redstone Fabrication Group, Tulsa, OK

- Own daily production for a 140,000 sq ft fab shop, 82 hourly across 3 shifts, weld, machining, and paint.
- Grew on-time shipment from 84% to 96% over two years by rebuilding the finite scheduling logic with the planner and IT.
- Manage a \$6.4M annual labor budget, came in under plan for three consecutive fiscal years.
- Chair weekly production meeting with sales, engineering, and materials; drive expedite decisions and overtime approvals.
- Lead a monthly gemba walk with the plant manager, close out roughly 20 to 25 floor-generated action items per cycle.

2016 - 2019

Assistant Production Manager | Meridian Steel Products, Muskogee, OK

- Supported the production manager across two shifts of laser cutting and press brake operations.
- Ran the weekly capacity model in Excel and reconciled it against the ERP load report.
- Led a Kaizen on nesting scrap that recovered around 8% of raw material on a specific plate grade.
- Covered for the production manager on PTO and during a 3-month medical leave.

2014 - 2016

Production Supervisor | Meridian Steel Products, Muskogee, OK

- Supervised 1st shift press brake and finishing area, 14 hourly.
- Owned daily production reporting, quality holds, and operator cross-training matrix.
- Ran the shift safety talk and monthly toolbox topics.
