

MARCUS WHITFIELD

SUPPLY CHAIN MANAGER

Two-year supply chain analyst focused on inbound planning and purchase order management for a mid-market apparel distributor. Strongest with Excel and NetSuite; comfortable digging through order history to explain why a lane went sideways.

KEY SKILLS

- Excel (pivot tables, XLOOKUP, index-match)
- NetSuite ERP
- Purchase order management and expediting
- Vendor communication
- Basic database querying
- Incoterms and freight documentation
- Cycle counting and inventory reconciliation

PROFESSIONAL EXPERIENCE

Supply Chain Analyst | Kestrel Apparel Group, Greenville, SC | 2023 – Present

- Maintain replenishment parameters for about 1,800 active SKUs across two DCs and update reorder points monthly.
- Pulled together a shortage report that flagged \$412K of at-risk backorders heading into the Q4 2023 peak, and worked with the buyer to expedite six containers.
- Own weekly vendor on-time reporting and distribute the scorecard to eight category managers.
- Backfilled the coordinator role for six weeks and processed roughly 90 POs a week without a missed cut-off.

Supply Chain Coordinator (Intern, then full-time) | Ferndale Outdoor Co., Asheville, NC | 2022 – 2023

- Confirmed purchase orders and tracked ocean containers from three factories in Vietnam, updating the arrival tracker daily.
- Reconciled freight invoices against BOLs and disputed about \$18K in overcharges in my first six months.
- Cleaned item master records so the new warehouse system rollout would not inherit duplicate items.

EDUCATION

B.S., Business Administration, concentration in Operations, Clemson University, 2022
