

PRIYA RAMASWAMY

Six years as a supply chain analyst across consumer goods and industrial distribution. Strong on demand forecasting, inventory policy, and freight cost analysis using enterprise planning tools and dashboards. Comfortable partnering with planners, buyers, and finance to turn messy operational data into decisions leadership can defend.

KEY SKILLS

- Demand forecasting and forecast accuracy analysis
- Inventory optimization and safety stock modeling
- SAP planning and ECC modules
- Database querying and relational data modeling
- Dashboard design and data modeling expressions
- Advanced Excel (Power Query, pivot models)
- Sales and operations planning and consensus planning
- Freight cost and carrier lane analysis
- NetSuite ERP

PROFESSIONAL EXPERIENCE

February 2022 - Present

Senior Supply Chain Analyst | Halverson Foods Group | Columbus, OH

- Rebuilt weekly demand forecast for 340 items in the planning system, cutting forecast bias from roughly 14% to under 6% over three quarters
- Redesigned safety stock logic by service class, freeing about $2.7M in working capital without missing the 98% case fill target
- Built a freight dashboard that flagged carrier lane overspend and supported a rebid saving an estimated $410K annually
- Partnered with sales and operations planning to standardize monthly consensus meetings, cutting prep time by half and giving finance a cleaner revenue view
- Mentored two junior analysts on database querying and forecast accuracy KPIs

June 2019 - January 2021

Supply Chain Analyst | Brightline Industrial Supply | Cincinnati, OH

- Ran daily inventory health reports across three DCs and escalated stockout risk on A-class items before it hit customer service
- Cut slow-moving inventory by 22% through a quarterly item rationalization process built with category managers
- Automated a manual open purchase order reconciliation in Excel and database queries, saving the buying team six to eight hours per week
- Supported ERP migration from a legacy AS/400 system to NetSuite, including user acceptance test scripts for the purchasing module

EDUCATION

B.S. in Supply Chain Management

The Ohio State University | - May 2018

- Certified in Production and Inventory Management, 2021
- Data Analyst dashboard training, 2023
