KEY SKILLS

- Crew scheduling and route sequencing
- Zero-turn, stand-on, and walk-behind mowers
- Irrigation troubleshooting (heads, valves, drip)
- Turf ID and basic disease/insect identification
- Mulch, sod, and shrub installation
- Skid steer and mini-excavator (under 200 hours)
- Truck and trailer pre-trip inspection
- Client walkthroughs and punch lists
- Bilingual English/Spanish (conversational)

Professional Experience

MAINTENANCE CREW LEADER | BLUEGRASS PROPERTY CARE, LOUISVILLE, KY

2020 - PRESENT

- Lead a three-person crew servicing 42 commercial and community properties on a weekly rotation from March through November.
- Route revenue on my truck ran about \$18,400 per week last season with roughly 96% on-time completion.
- Handle first-look diagnosis on irrigation issues: broken heads, stuck valves, clogged drip; escalate wiring and controller problems to the irrigation tech.
- Cross-trained two laborers into backup crew leaders so the route keeps moving when I take vacation or head to a bid walk.
- Run pre-trip inspections and daily equipment checks; no lost-time injuries on my crew in the last three seasons.

LANDSCAPE LABORER | FALLS CITY LAWN CO., JEFFERSONVILLE, IN

2018 - 2020

- Ran mow, trim, edge, blow routes on residential accounts, 20+ stops per day at peak.
- Installed mulch, sod, and small foundation plantings; helped on two paver patio jobs.
- Assisted the spray tech with pre- and post-emergent applications under supervision.

Education

- Associate of Applied Science, Horticulture (in progress), Jefferson Community & Technical College, expected 2025
- State-licensed to apply ornamental and turf pesticides, Category 3
- 10-hour jobsite safety training, 2021
