- Michigan ID and out-of-state ID checks
- Basic terpene vocabulary
- Cash drawer counts
- Customer intake for first-time buyers
- Restocking and display resets

Matthew White

Budtender

ABOUT ME

New budtender with 14 months on a rec and medical floor, strong on ID checks, product menu recall, and keeping the sales floor tidy during rush. Curious about terpenes and extraction methods, comfortable asking a lead when a customer question is out of my depth.

PROFESSIONAL EXPERIENCE

Budtender | Northline Provisioning Center, Ann Arbor, MI
2023 – Present

- Serve 70 to 90 customers per shift on the rec side, verify ID at the door, and re-verify at the register.
- Learned the full flower menu (roughly 45 SKUs) within the first month and answer strain questions without pulling out a reference sheet.
- Weigh and label deli-style flower on a state-certified scale, double-check gram totals against the customer's daily purchase limit.
- Restock edibles, vapes, and pre-rolls between customers so the display case stays full during evening rush.

Barista | Kettle Row Coffee, Ypsilanti, MI
2021 – 2023

- Ran open shifts alone, handled 60+ morning drink orders on a two-group espresso machine.
- Trained 3 new hires on drink builds and POS during a summer expansion.
- Kept the milk fridge and pastry case stocked and rotated by pull date.
